

C

Singing Radiohead at the top of our lungs

Am

With the boombox blaring as we're falling in love

F

I got a bottle of whatever, but it's getting us drunk

G

Singing here's to never growing up

C

Call up all our friends

Am

Go hard this weekend

F

For no damn reason

G

I don't think we'll ever change

C

Meet you at the spot

Am

Half past ten o' clock

F

We don't ever stop

G

And we're never gonna change

Dm

Say

Won't you say forever

F

Stay

Won't you stay forever

Dm

Hey

F

We can stay forever young

C

Am

F

I got a bottle of whatever, but it's getting us drunk

G

Singing here's to never growing up

C

We'll be running down the street yelling, "Kiss my ---"

Am

I'm like, "Yeah, whatever," we're still living like that

F

When the sun's going down, we'll be raising our cups

G

Singing here's to never growing up

C *Am*

Oh whoa, oh whoa, here's to never growing up

F *G*

Oh whoa, oh whoa, here's to never growing up

C

We live like rockstars

Am

Dance on every bar

F

This is who we are

G

I don't think we'll ever change

C

They say "Just grow up"

Am

But they don't know us

F

We don't give a ----

G

And we're never gonna change

Dm

Won't you say forever

Won't you stay forever
