Let us go more with love could have driven us out of the prison

A E D E
One can find a way to love her, one can't achieve, that's the way it goes lady

A E D
When you make me cry you don't have the right, so baby

E A
Would you still (be) in love if we together were?

E D
What to do right now, she is waiting in the crowd

E
I wonder if she asks "Are you coming with me?"

A E
Should I again go through?

D E
Even if you shut the door without thinking before

A
I start begging for more

E
Should I again go on?

D E
Even if it's getting worse when there's nothing I can do

A
Let's hope love comes through
