Вm G Em F# / F#7 **Mmmmmmm Mmmmmmm Mmmmmmmm** There goes my heart again All of this time I thought we were pretending Nothing looks the same when your eyes are open F#/F#7 Now you're playing these games to keep my heartbeat spinning You show me love, you show me love G You show me everything my heart is capable of You reshape me like butterfly origami Bm You have broken into my heart This time I feel the blues have departed Em Nothing can keep me away from this feeling F#/F#7 I know I am simply falling for you I'm taking time to envision where your heart is And justify why you're gone for the moment I tumble sometimes, looking for sunshine F#/F#7 And you know this is right when you look into my eyes You show me love, you show me love G You show me everything my heart is capable of F# / F#7 Bm And now I can't break away from this fire that we started Bm You have broken into my heart This time I feel the blues have departed Nothing can keep me away from this feeling F# / F#7 I know I am simply falling for you Bm

There my heart goes again

In your arms I'm falling deeper

And there's nothing to break me away from this
