don't look back
undress in the dark
and hide from you
all of you

C D A

You'll never know the way your words have haunted me
I can't believe you'd ask these things of me
you don't know me

Em D C

You belong to me

Am Em

my snow white queen

D C Am

there's nowhere to run, so lets just get it over

Em D C

Am Em

you're just like me

D C Am Em D

don't scream anymore my love, cause all I want is

C#5 C

Wake up in a dream
frozen fear
all your hands on me
I can't scream, I can't scream

C D A

I can't escape the twisted way you think of me
I feel you in my dreams and I don't sleep
I don't sleep

though nothing I bleed for is more tormenting

Em D C Am Em D C Am

I'm losing my mind and you just stand there and stare as my world divides

Em D

all I want is you 3x
